PROFESSIONAL SUMMARY

Flutter Developer with freelance and project experience building cross-platform mobile applications for client and academic projects across e-commerce, real estate, event booking, healthcare, and real-time communication. Experienced with Dart, Flutter, BLoC/Cubit, GetX, REST API integration using Dio, Clean Architecture, Repository Pattern, and dependency injection. Integrated services including Firebase Authentication, Firebase Cloud Messaging (FCM), Pusher, Agora, Paymob, and Google Maps in relevant projects.

TECHNICAL SKILLS

Languages	Dart, C#, SQL, LINQ, Object-Oriented Programming
Flutter & UI	Flutter, Android/iOS, Responsive UI, Localization, Dark/Light Themes
State Management	BLoC, Cubit, GetX
Architecture	Clean Architecture, Repository Pattern, SOLID Principles, Dependency Injection (GetIt)
Networking & APIs	Dio, REST APIs, JSON, Interceptors, Error Handling, Pagination, Multipart Requests
Firebase	Firebase Authentication, Firebase Cloud Messaging (FCM)
Real-Time & Media	Pusher, Agora SDK, Audio/Video Calling
Payments & Maps	Paymob Integration, Google Maps, Location Services
Tools	Git, GitHub, Postman, Android Studio, Visual Studio Code, Xcode, TestFlight

PROFESSIONAL EXPERIENCE

Freelance Flutter Developer
2022 - Oct 2024 | Oct 2025 - Present

Freelance client projects | Egypt, Kuwait, Saudi Arabia

- Developed Flutter application features for client projects in e-commerce, event booking, real estate, healthcare, and real-time communication.
- Integrated REST APIs using Dio and connected UI workflows with backend services, including request handling, response parsing, and error states.
- Implemented state management with BLoC/Cubit or GetX and organized reusable components to keep features maintainable.
- Integrated third-party services where required, including Pusher, Agora, Paymob, Firebase Cloud Messaging, and Google Maps.
- Implemented responsive layouts, localization, and theme support where required by individual app designs.

Software Developer - Military Service
10/2024 - 10/2025

National Roads Company, Egypt

- Maintained internal WPF/.NET applications using C#, Entity Framework, Telerik components, SQL, and LINQ.
- Supported HR/payroll data workflows, reporting modules, debugging, and maintenance of existing internal applications.

SELECTED PROJECTS

Live Chat & Social Communication Platform
Client Project

Flutter | GetX | Clean Architecture | Pusher | Agora | Paymob | FCM

- Implemented private/group real-time messaging with Pusher, audio/video calling with Agora, payment workflows with Paymob, and push notifications with FCM.
- Used GetX for state management and organized chat features within a maintainable architecture.

Live Chat Web Demo
Web Demo

Flutter Web | Cubit | REST APIs | Cloudflare Worker

- Built a browser-based demo using Flutter Web and Cubit to manage UI states for chat-related flows.
- Connected the web client to existing backend APIs through a Cloudflare Worker proxy.

SELECTED PROJECTS (CONTINUED)

Tharwat Pharmacy - Pharmacy E-Commerce App Ongoing

Flutter | GetX | REST APIs

- Developing pharmacy shopping flows for product browsing, ordering, payment/delivery workflows, and order tracking.
- Connected product and order screens to available backend APIs, managing loading, empty, success, and error states.

Islamic Companion Application Project

Flutter | BLoC/Cubit | Dio | GetIt | Firebase Authentication

- Implemented Islamic utility features including prayer times, Quran, Hadith, Azkar, Quran recitations/audio, and reminders.
- Integrated Firebase Authentication, Dio for API communication, and GetIt for dependency injection in the relevant app layers.
- Supported Arabic/English localization, dark/light themes, local persistence, and reminders in the app experience.

Ejary Cash - Real Estate Marketplace Client Project

Flutter | GetX | REST APIs | Google Maps | FCM

- Built property browsing/listing workflows for rental and sale properties, property requests, and map/location features.
- Presented annual and semiannual rent plans as monthly installments and integrated map/location and Firebase notification features.

White Eagle - Event & Ticketing Application Published

Flutter | GetX | REST APIs | Paymob

- Developed event discovery, event details, media galleries, ticket booking, and checkout workflows using backend APIs.
- The app was published for a period and later discontinued; it is not presented as a currently available store app.

Massa - E-Commerce Application Client Project

Flutter | GetX | REST APIs | Voice Search | TestFlight

- Implemented product browsing/search, voice-based product search, and in-app chat ordering workflows.
- Prepared an iOS build for client review and beta testing through TestFlight; the project is not described as a full public launch.

ORAI - AI Dental Assistant (Graduation Project) Academic

Flutter | REST APIs | Healthcare UI

- Built Flutter workflows for oral-image upload and presentation of AI-generated diagnostic results and recommendations for dentists.
- Implemented chatbot and patient-profile interfaces and integrated APIs supplied by the backend team; AI inference was handled outside the Flutter client.

Emergency Medical Services Application Paused Project

Flutter | GetX | Responsive UI | Location Flows

- Developed core Flutter UI flows for patient, doctor, nurse, and medical-center roles, including emergency/service requests.
- Added location-related screens and responsive role-specific flows; project work was paused during military service.

EDUCATION

Faculty of Computer Science - Mansoura University 2021 - 2025

Bachelor's Degree in Computer Science | Overall Grade: Very Good

HONORS & AWARDS

- AI Book Summarizer ("Let's Embark"): AI-assisted book summaries with audio output; 3rd place, IEEE BUB Student Branch / IEEE R8 Entrepreneurship Week.
- Reader Sphere AI Reading Assistant: AI-supported reading project; 4th place, IEEE Technical Competition, Mansoura Branch.

CERTIFICATIONS & LANGUAGES

- DEPI - Mobile Application Developer Track, MCIT, Egypt (Apr 2024 - Oct 2024).
- Business English Track - MCIT / Berlitz (Apr 2024 - Oct 2024).

Languages: Arabic (Native), English (Intermediate)
